

Paul Le Sage,
San Juan Capistrano, CA.

Pin Point Practice

Paul Le Sage keeps his TIG skills sharp by welding up and down *sewing pins*.

And Paul's Speedglas® APC-V lens makes TIG practice a whole lot easier. Paul (a.k.a. Team Torch) does his *real* welding at national drag racing events, where he counts on the rugged durability of the Speedglas helmet...because Paul can't always work on pins and needles.

HORNELL SPEEDGLAS INC.
2374 Edison Blvd., Twinsburg, OH 44087, USA
(800) 628-9218 • Fax (216) 425-4576

The new Speedglas APC-Variable lens automatically darkens when an arc is struck and has five dark shade levels. Now available with peripheral vision SideWindows™ lenses.
